

GAS FIRE LOGS

Beauty, Warmth & Atmosphere that Will Never Turn to Ashes.

HARGROVE gas fire logs carry a limited lifetime warranty against breakage in the original fireplace. All accessories carry a two-year limited warranty in the original fireplace.

CLEAN:

No logs to carry in, no ashes to carry out, no messy woodpile! HARGROVE gas logs produce less pollution than burning wood.

SAFE:

HARGROVE logs are cast in refractory concrete and reinforced with steel lath. They will withstand temperatures of over 2000° F. and eliminate dangerous sparks made by wood fires.

ECONOMICAL:

For less than the cost of burning wood, these logs will radiate heat for hours after the gas has been turned off.

CONVENIENT:

A realistic fire is yours, complete with glowing embers, by simply striking a match and turning on a valve. All HARGROVE vented gas log sets are designed to function in a fully vented metal or masonry fireplace with a natural gas supply where wood can be burned safely. The flue damper must be fully open during use.

LOOSE LOG SETS

All NEW Installations Require an Accessory Kit AND a Loose Log Set

RUSTIC TIMBERS

RUSTIC TIMBERS further refines Hargrove's Vesta Award Winning Radiant Heat vented log series, and Radiant Riser™ technology. For radiant heat production comparable to a vent-free log set, while retaining the beauty and realism found only in Hargrove vented gas logs.

INFERNO

The HARGROVE INFERNO SERIES is the most realistic gas log set yet. Instead of a nice, neat stack of logs that look "staged", Inferno has a fire that doesn't look like it was just lit, the INFERNO SERIES appears to be a wood fire that's an hour or two old, with flames that are working away on the partially burned logs.
