

SHAKERTOWN®

CEDAR SHINGLES SIMPLIFIED

All nine Fancy Cuts patterns are packaged 96 pieces to the carton. One carton will cover 25 square feet when shingles are installed at the 7½" exposure recommended for exteriors.

When used for interiors, a carton covers 33 square feet at a 10" exposure.

Fancy Cuts are also available in 8-foot, single course panels by special order.

The right finishing touch can turn an ordinary project into an extraordinary seller. And that's exactly what Shakertown Fancy Cuts shingles are designed to do.

They are mostly for small accents. But what an accent. Each Fancy Cuts shingle is 100% Western Red Cedar. With natural variations in color and grain that give each one an accent of its own.

Fancy Cuts come in many precision cut patterns, either as individual shingles or 8-foot panels. Mix and match patterns to create an original design.

Keyway style
Vertical spacing
between shingles
lends visual
interest and
traditional appeal.

Even butt
Creates a
consistent,
symmetrical line
in keeping with
newer styles.

Staggered butt
Adds character
and dimensionality
to a home's
finished
appearance.
